Welcome to Lillio Learning!

Lillio Learning for Preschool Classrooms is a research-based curriculum developed for children ages 3 to 5 years old. The activities are designed to create enthusiasm for learning and build critical school readiness skills, and are aligned to early learning standards established throughout the United States.

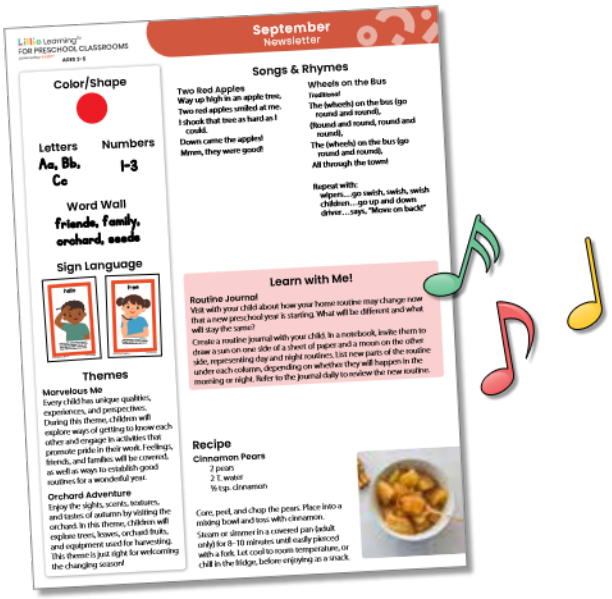

Benefits for Your Child

- Builds enthusiasm for lifelong learning
- Fosters problem-solving skills
- Promotes hands-on learning
- Nurtures curiosity and creativity
- Builds confidence, self-esteem, and autonomy
- Embraces community and unity

Benefits for Families

- Knowledge that your child is participating in a curriculum program aligned with the highest quality standards in early childhood education.
- Family engagement opportunities are built into the monthly curriculum to keep you involved in your child's learning. Additional materials, including calendars, blog articles, and music playlists, are available online.
- Exceptionally prepared educators and caregivers are able to spend more time each day interacting with children and less time prepping and planning.

What Will My Child Learn?

Learning experiences are organized around themes that are related to children's natural interests, shared traditions, and seasons. Planning begins by defining the learning goals for each theme. This ensures that the offered learning experiences are purposeful and grounded in outcomes. Learning experiences promote skills development in the following areas:

Language/Literacy

Math

Science

Social Studies

Social/Emotional

Approaches to Learning

Physical Development/Health

Creative Arts

Developmentally Appropriate Practice

Our curriculum values play, fosters a positive learning disposition in each child, and provides a framework through which educators can ensure that the children's learning experiences are consistent with the program's goals.

The Science of Reading

Our approach to pre-literacy ensures children leave preschool with the skills they need to learn how to read. We emphasize the relationship between letters, phonemes, and written expression, as well as rhyming, read-alouds, and robust vocabulary.

A Focus on the Future

Our curriculum keeps children at the forefront. As research evolves, so do we! We promise to attend to the latest needs of the field, equip educators with strategies to foster learning across developmental areas, and nurture a love for learning that extends beyond the early years.
